Health of Codebase

We deliver great stuff! We're proud of it and our stakeholders are really happy.

We deliver crap. We feel ashamed to deliver it. Our stakeholders hate us.

Releasing is simple, safe, painless and mostly automated.

Releasing is risky, painful, lots of manual work and takes forever.

We love going to work and have great fun working together!

Booooooring...

We're proud of the quality of our code! It is clean, easy to read and has great test coverage.

Our code is a pile of dung and technical debt is raging out of control.

Pawns or Players

Speed

We're learning lots of interesting stuff all the time!

We never have time to learn anything.

CC-BY-SA-3.0-FR Ajiro.fr

We know exactly why we are here and we're really excited about it!

We have no idea why we are here, there's no high lever picture or focus. Our so called mission is completely unclear and uninspiring.

CC-BY-SA-3.0-FR Ajiro.fr

We are in control of our own destiny! We decide what to build and how to build it.

We are just pawns in a game of chess with no influence over what we build or how we build it.

CC-BY-SA-3.0-FR Ajiro.fr

We get stuff done really quickly! No waiting and no delays.

We never seem to get anything done. We keep getting stuck or interrupted. Stories keep getting stuck on dependencies.

Suitable Process

Our way of working fits us perfectly!

Our way of working sucks!

CC-BY-SA-3.0-FR Ajiro.fr

Support

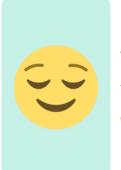

We always get great support and help when we ask for it!

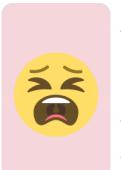

We keep getting stuck because we can't get the support and help that we ask for.

Teamwork

We are a totally gelled super-team with awesome collaboration!

We are a bunch of individuals that neither know nor care about what the other people in the squad are doing.
